# Specification for Optical Fiber Cable Assemblies for CC-Link IE Controller network

Type QG-G50-2C-□M-B

## MITSUBISHI ELECTRIC SYSTEM&SERVICE CO.,LTD.

Note

Revision Check Design Approved Drawn 6 Jul., 2022 В 6 Feb., 2023 N.Ishii M.Edatsugi D.Fukushima S.Kariya Send to Dwg Date 10 Nov., 2020 Order X903703D50018-H05B

Page 2/7

#### 1. SCOPE

This specification covers the requirements for the optical cable assemblies type QG-B for CC-Link IE.

\* The Products covered in this specification don't include the toxic substances in RoHS2.

#### 2. USE ENVIRONMENT

The cable shall be used in following conditions.

- ① Indoor pipe \*\*1
- ② Rack
- 3 Duct
- 4 Free access
- ⑤ Control box<sup>\*2</sup>
- \*1 Available for optical fiber dedicated route.
- \*\*2 Allowed if bending radius and storage space allow.

#### 3. LENGTH OF CABLE

The maximum length of the cable is two kilometer. (The maximum length of the cable with connector is 550 meters.)

Page 3/7

#### 4. CABLE TYPE

■For with connector

■For cable only

$$\begin{array}{cccc} \underline{QG} - \underline{G50} - \underline{2C} - \underline{B} & \underline{\square} \underline{m} \\ (1) & (2) & (3) & (5) & (4) \end{array}$$

(1) Cable series name	Optical cable for CC-Link IE		
(2) Type of optical fiber cord	G50:Core diameter $50 \mu$ m GI optical fiber		
(3) Number of Optical Fiber	2C: Duplex cord		
(4) Length of cable	$\square: 1\sim 2000$ (Cable only)		
	$1\sim550$ (With connector)		
(5) Cable type	Indoor type		
(6) Applicable connector	LL: LC duplex connectors on both sides		
	LS: LC duplex connector on one side - SC connector on one side		
	LF: LC duplex connector on one side - FC connector on one side		
	LN: LC duplex connector on one side - no connector on one side **3		
	SS: SC connectors on both sides		
	FF: FC connectors on both sides		
	SF: SC connector on one side - FC connector on one side		

<sup>\*3:</sup> After processing the connectors on both ends, the loss is measured and the connector on one end is cut.

#### 5. CORD CONSTRUCTION

The construction of the optical fiber cord shall be in accordance with Table 1.

Table 1. Cord construction

	Table 1. Cold constitution						
No.	Item		Construction				
	Туре		GI optical fiber (multi mode)				
	Conforming Standard		IEC60793-2-10 A1a.1				
		Materials	Silica Glass				
	Core	Diameter	$50\pm3\mu\mathrm{m}$				
	Cladding	Materials	Silica Glass				
		Diameter	$125\pm2\mu\mathrm{m}$				
	Protective	Materials	Zero Halogen				
1	Coating Diameter		0.9±0.1mm				
	Identification		See Fig.1				
	C1 4	Materials	als PVC (Orange)				
	Sheath Diameter		$2.0 \pm 0.2 \text{mm} \times 2$				
			Min	Max	Unit	Conditions	
	Maximum Tensile Load		_	60	N	By careless handling (short term)	
	Minimum Radius Bend		15		mm	After careless handling	

Page 4/7

#### 6. OPTICAL CHARACTERISTICS

The optical characteristics is listed in Table 2 .

Table 2. Optical characteristics

Items	Construction		
Attenuation	$3.0 dB / km$ or under $[\lambda = 850 nm]$		
Auchanon	$1.0 dB / km$ or under $[\lambda = 1300 nm]$		
Dan dayi dela	500MHz • km or over [ $\lambda$ =850nm]		
Bandwidth	500MHz • km or over [ $\lambda$ =1300nm]		

#### 7. OPTICAL CONNECTOR CONSTRUCTION

Table 3. Optical connector construction

Item	Specification			
Product name	LC duplex connector	SC connector	FC connector	
Type of optical connector	DLCF-G50-D2	DSC-G50-D2	DFC-G50-D2	
Standard	IEC61754-20	IEC61754-4	IEC61754-13	
Connection loss (in respect to master fiber)	0.3dB or less			
Polishing method of connector	PC polish			
Operating Temperature	-40∼+85°C			
Connection method  Cross connection (Connect the A side connector on one side connector on the other side) **4		tor on one end to the B		

<sup>\*\*4</sup> For LC duplex connectors on both sides.

#### 8. CABLE CONSTRUCTION

The construction of the optical fiber cable shall be in accordance with Table 4.

Table 4. Cable construction

No.	Item	Construction	on		
1	Type of optical fiber cord	See Table 1.			
2	Strength Member	Aramid fiber			
3	Tape	Plastic			
4	Sheath	Heat Proof PVC (Orange)			
	Cable Diameter	6.0mm			
	Approximate Net Weight	35 kg/km			
		Min	Max	Unit	Conditions
	Operating Temperature	-20	60	$^{\circ}\! \mathbb{C}$	_
	Maximum Tensile Load	_	420	N	By careless handling (short term)
	Minimum Radius Bend	60		mm	After careless handling
	Crush Resistance		735	N/50mm	By careless handling (short term)

Spec. No.X903703D50018-H05B Page 5/7

#### 9. MARKING

The optical cable shall be printed following marking format on the one side of sheath by regular interval.

• Marking content: CC-Link IE OPTICAL FIBER CABLE QG-G50-2C-B \*\*\*\*\*\*\*

Marking pitch: 1000mmMarking color: Black

### CC-Link IE OPTICAL FIBER CABLE QG-G50-2C-B \*\*\*\*\*\*\*\*

6-digit or 7-digit serial number

Fig.1 Marking of Optical Fiber Cord

\* Please acknowledge it though the print display might rub when transporting, and careless handling it and it disappear.

#### 12. OTHERS

Protective holder

Item	Specification
Applicable optical fiver cable	QG Series
Applicable connector	LC duplex connector (DLCF-G50-D2)
Materials	PC (Black)
Operating Temperature	-20∼+60°C

Note) Never mount this product onto connector other than the Mitsubishi connector or use a damaged protective holder. Failure to observe this could result in damage or increased losses.
